

**EASWARI ENGINEERING COLLEGE
(AUTONOMOUS)**

THE INSTITUTION OF ELECTRONICS AND TELECOMMUNICATION ENGINEERS

PRESENTS

pragyotsav 2022

A NATIONAL LEVEL TECHNICAL FESTIVAL

ABOUT THE COLLEGE

Easwari Engineering College is an Autonomous institution (as per the 2019 regulation), that was instituted in the academic year 1996-1997, with the approval of the Government of Tamil Nadu and AICTE, New Delhi. As per Govt., Regulations for affiliation, originally the college was affiliated to the University of Madras, subsequently, the college is affiliated to Anna University Chennai since 2002.

Pursuing the philosophy of continuous learning, the Institution prepares the students to score creditably in the Academic sessions and also encourages them to develop their interpersonal and intrapersonal skills and attitudes to approach life with confidence.

ABOUT IETE

The Institution of Electronics and Telecommunication Engineers (IETE) is a platform to enrich profound knowledge in the field of science and technology. It is India's leading and most recognized professional society which was established in 1953 and serves more than 1,25,000 members (including Corporate, Student, and ISF members) through 63 Centres, spread all over India and abroad. The government of India has recognised IETE as a Scientific and Industrial Research Organization (SIRO) and has also notified it as an educational Institution of National Eminence. The department of Electronics and Communication Engineering of SRM Easwari Engineering College, has been the local chapter of IETE from 2008. Since then, our department has conducted multiple events to keep our student members engaged in various technical fields to learn efficient skills and acquire knowledge on the very same.

PRAGYOTSAV 2022

Pragyotsav is a national-level technical event conducted by the IETE forum of our college. This event is to provide extensive knowledge and exposure in the field of engineering and come out with innovative ideas on the technical challenges. Our past Pragyotsav events bloomed with triumph with the dedication of fellow members, support from the college, and the contribution of the sponsors. This event has reached more than 10,000 undergraduate and postgraduate students across India. This year Pragyotsav expects to have a bigger reach in order to show more knowledge into students.

AIM AND FOCUS

Preparing students for learning and competing with fun.

Reaching new goals and new set of students every year.

Analysing each and every participant's interest and intelligence.

Gathering students from various colleges for one single purpose: to learn with fun.

Youth is power. We shape them into better skilled and enthusiastic engineers and designers.

Organising this event, brings the best team work and management within us.

Team spirit is developed and nurtured among the participants and the organisers.

Spirit of students to engage more is eventually seeded.

Accclaiming the best team works and ideas to further steps.

Vast opportunities are developed by and for budding engineers.

EVENTS

RC ROBO RACING

DRONE RACING

ROBO WAR

TECH FEUD

STYLE SOLDERING

ROBO LINE FOLLOWER

PAPER PRESENTATION

ROBO SOCCER

3D PRINTING

RC ROBO RACING

Tune up your rusty motors and assemble a machine that can flaunt through the intensely set-up aggressive path. Oh, wait... did I forget to tell you that there's a time limit? well, good luck!

DRONE RACING

Look! up in the sky! It's a bird! It's a plane! Nope, it's a drone dude! Gear up your controllers and get ready to scoot your way through hula hoop and all kinds of daring obstacles and show that you got those prize-worthy skills!

ROBO WAR

Protect whatever is precious to you, one day it'll lead you to protect something else.. probably a prize or a well-jacked story. Sign up for this battle royale and wage a war on anyone and everyone that gets in your way *coughs * your robot's way.

TECH FEUD

A team for a team, a word for a word. Team up with your friends and get ready for the geekiest showdown. Join forces with your friends to display who's got a cut above your adversaries. Try not to miss out on this entertaining event.

STYLE SOLDERING

You can't ask a fish to climb a tree but you can definitely ask a fellow engineer to design with creativity. wield your soldering rod and map out the blueprint with focus and precision.

ROBO LINE FOLLOWER

Turn right to go left. Sounds dumb right? Well not so much. Chances are you're gonna have to do that. Master the prearranged path in the shortest time possible and get your prize awaiting at the end of the road.

PAPER PRESENTATION

All you need is a place and the people willing to lend an ear to our suggestions. The good news is we got that taken care of as you are provided with the platform to set forth your ideas and make everyone brainstorm through your presentation. All you need is just a pen, paper, and maybe someformidable pals who are up for the task!

ROBO SOCCER

Gadgets? Check! Chivalry? Check! fear? not found..
Oh hey! I was just prepping for the Robo soccer and I think you should too... Exhibit your Engineering-cum-soccer skills in this event and show who's got the best skills! Exciting prizes are awaiting for the worthy one!

3D PRINTING

Everything starts with a dream but where is the end? Probably not a 3D printer but it can certainly get you somewhere! Participate and master the aesthetics of 3D printing with the help of the workshop held at this event and get the finest prize of all, knowledge!
